The longer you are insured with State Farm and the fewer claims you have, the lower your premium. All types of claims may have an impact on your premium. There are multiple ways your premium could increase due to claim activity. Claims considered generally include claims resulting in a paid loss and may include weather-related claims. These claims may be considered by the Claim Free Discount Plan, the Claim Record Rating Plan, or as part of a separate rating factor that is based, in part, upon your claim history. Premium adjustments are based on the number of years you have been insured with State Farm and on the number of claims that we consider for these plans. Additionally, any claims with your prior insurer resulting in property damage or injury may also influence your premium. For further information, please contact your State Farm agent.
